Professional Summary

ISTQB Certified QA Engineer with 8 months of hands-on internship experience in an Agile, Unreal Engine 5-based simulation environment. Proven ability to design and execute functional, regression, and exploratory test strategies while managing defect lifecycles end-to-end using Jira and Xray. Experienced in UI and API automation with Selenium, Cucumber (BDD), TestNG, and Rest Assured. Final-year IT undergraduate at University of Moratuwa with a CGPA of 3.75, seeking a Quality Engineer role to deliver reliable, high-quality software.

Professional Experience

Quality Assurance Engineer Intern

SimCentric Technologies (Pvt) Ltd – Sri Lanka

Mar 2025 – Oct 2025

- Tested features within an Unreal Engine 5-based simulation environment, focusing on UI behavior, system interactions, and user workflows.
- Performed functional, regression, UI/UX, and exploratory testing to identify defects and usability issues.
- Logged, tracked, and verified defects using Jira, providing clear reproduction steps, environment details, and supporting evidence.
- Collaborated with Developers, Business Analysts, and Project Managers during Agile sprint planning and review sessions to clarify requirements and validate new features.
- Maintained accurate test documentation and execution reports in Xray and Confluence.
- Utilized QA tools and workflows including Edraw Mind Maps, Git, and Bitbucket within the Unreal Engine 5 project environment.
- Conducted exploratory testing to uncover edge-case issues impacting user experience.
- Initiated SikuliX-based visual automation to streamline repetitive UI validation tasks.

Education

BSc (Hons) in Information Technology

University of Moratuwa – Sri Lanka

Jun 2022 – Jul 2026

CGPA: 3.75

Dean's List: Level 1 Semester 1 (SGPA: 3.83), Level 2 Semester 1 (SGPA: 3.80)

Diploma in Business Management

Institution of Management and Business Studies

Jan 2021 – Jan 2022

GPA: 3.75

G.C.E Advanced Level Examination

Z-Score: 2.0943

Combined Mathematics: B ICT: A Physics: C

Certifications

ISTQB Certified Tester – Foundation Level (CTFL) - Issued by ISTQB

Jan 2026

Foundation of Software Testing and Validation – Coursera

Feb 2025

Introduction to DevOps – Coursera

Jul 2024

Project Experience

QA Automation Project – University Module (Group Project)

- Analyzed Software Requirement Specification (SRS) and derived comprehensive UI and API test scenarios.
- Designed Behavior-Driven Development (BDD) test cases using Gherkin syntax.
- Automated UI test cases using Selenium WebDriver integrated with Cucumber and TestNG.
- Automated REST API test cases using Rest Assured.
- Logged and categorized defects based on severity and priority.
- Followed complete QA lifecycle

The Unified Project Workspace – Group Project

- The Unified Project Workspace is a responsive web application built to optimize collaboration among employees in association with IKON Marketing for the Level 2 software project.
- I worked as the project team leader and a full stack developer , where I also planned test cases and conducted JEST testing to ensure application reliability.
- Technologies: Typescript, React, NodeJS, Tailwind CSS, Express JS, MySQL

Restful-Booker API Test Suite – Self-Learning Project

- Designed and automated 12+ API test cases covering CRUD operations using Java, Rest Assured, and TestNG, utilising POJO models for request serialisation and validating status codes, response bodies, and authentication flows against a live REST API.
- Built a parallel Postman collection with environment variables and automated token generation scripts, enabling manual and exploratory API testing alongside the automated suite.

Technical Skills

Testing Expertise: Functional Testing, Regression Testing, Smoke Testing, GUI Testing, Test Case Design, Defect Lifecycle Management

Automation & Tools: Selenium (Basics), Cucumber (BDD), TestNG, Rest Assured, SikuliX, Postman

Test Management & Collaboration: Jira, Xray, Confluence, Git, Agile/Scrum

Programming & Databases: Java, Python, C, TypeScript, MySQL

Leadership & Activities

Web & Technology Pillar Member – MoraSpirit Initiative (University of Moratuwa)

Software Engineer (Frontend) – DevLabs, IT Faculty (University of Moratuwa)

Assistant Secretary – Catholic Student Movement (University of Moratuwa)
